DETAILED ACTION

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

IN THE CLAIMS:

Claim 1, line 1, before "program", --video-- has been inserted; line 6, after "of", -- a-- has been replaced by --the--; line 7, --video-- has been inserted before "program", in both occurrences.

Claim 9, line 1, before "program", --video-- has been inserted; line 6, after "of", -- a-- has been replaced by -the--; line 6, --video—has been inserted before "program", in both occurrences.

Claim 17, line 1, before "program", --video--has been inserted; line 6, after "of", -a-- has been replaced by -the--.

Claim 23, line 6, after "of", --a-- has been replaced by --the--.

IN THE SPECIFICATION

Page 1, lines 3-7 has been replaced by the following paragraph:

Application/Control Number: 10/518,997

Art Unit: 2611

--This application claims the benefits, under 35 U.S.C 365 of international Application PCT/US03/19278, filed June 19 2003, which was published in accordance with PCT Article 21(2) on December 31, 2003 in English.--

2. The following is an examiner's statement of reasons for allowance: a method and apparatus for downloading and displaying a video program are disclosed. The closest prior art, Schuchman et al, US Patent No. 5,640,453, discloses similar method and apparatus. However, Schuchman et al does not teach or fairly suggest the limitations recited in claim 1, lines 12-17 and similar limitations recited in claim 9. It also fails to teach the limitations recited in claim 17, lines 12-16 and similar limitations recited I claim 23.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Priority

3. Applicant's claim for the benefit of a prior-filed application under 35 U.S.C. 119(e) or under 35 U.S.C. 120, 121, or 365(c) is acknowledged. Applicant has not complied with one or more conditions for receiving the benefit of an earlier filing date under 35 U.S.C. 119(e) as follows:

Application/Control Number: 10/518,997

5/1/00/11/0/ 11d/11/00/11 10/010/0

Art Unit: 2611

The later-filed application must be an application for a patent for an invention which is also disclosed in the prior application (the parent or original nonprovisional application or provisional application). The disclosure of the invention in the parent application and in the later-filed application must be sufficient to comply with the requirements of the first paragraph of 35 U.S.C. 112. See *Transco Products, Inc. v. Performance Contracting, Inc.*, 38 F.3d 551, 32 USPQ2d 1077 (Fed. Cir. 1994).

The disclosure of the prior-filed application, Application No. 60/390,841, fails to provide adequate support or enablement in the manner provided by the first paragraph of 35 U.S.C. 112 for one or more claims of this application. For instance claim 17, the limitations recited in lines 12-16 are not supported by the original disclosure of the provisional application. In other words, the provisional application does not disclose the steps of "downloading a current layer and a next layer of the video program at the same time when the mobile terminal enters the coverage area of the second radio access network and increasing the playback rate at which the video program is displayed to increase the display quality, when the next layer has been completely downloaded". In addition it is noted that the original disclosure of the provisional application does not contain any drawings. Accordingly, the claimed priority to the provisional application serial number 60/390,841, has been denied.
